

Leo Kaden

Leo came from Kaden, Russia which may now be inside Poland. The name of Kadensky was shortened when he came to the USA. He settled in Chicago. His wife was Rose Bernstein (mother's name was Leah (Lillian named for her). Leo came to the USA with Julius (13) and Abe to keep them out of the army. They worked in Chicago then Leo went back after the rest of the family. He bought old umbrellas and made neck ties from these. He then continued with a necktie factory.
